A Word of Thanks...

Thank you for attending the Flower and Vegetable Show and for taking the time to look at the various exhibits. There will be an auction of produce later in the afternoon and all proceeds go towards next year's show so I hope that you will support it.

Thank you to all the exhibitors, visitors, Civic guests, fellow Town Councillors and staff for all your continued support.

The Town Council would also like to thank the judges for making themselves available for the important task of judging the exhibits at the show.

We have made some changes to this year's schedule to try and encourage new exhibitors and to accommodate the show in the newly refurbished Town Hall. If there is a class missing that you particularly love, then please do let us know and we will see what we can do to bring it back.

We hope that the new venue will attract more visitors with it being closer to the town centre and that visitors and exhibitors will support our local businesses while they are in town.

Pedal Power vs Parkour

Pedal Power vs Parkour is the only show of its kind in the UK. The display combines the incredible skill, balance and power of a trials rider and the finesse of a gymnast / parkour athlete. Both athletes will be putting it all on the line in an attempt to become the crowds' favourite!

The bespoke rig has been specially made so that both styles of extreme sport can be showcased in an exciting, heart stopping performance. You can expect both athletes to perform all of the latest tricks you have only ever seen on the internet and on TV, pushing the limits of what's physically possible in their attempt to win over the crowd!

Not only will the parkour athlete be able to jump around on all of the high platforms including the roof of the van but he'll also be able to take advantage of a number of trampolines that are placed around the arena. Some would say this is the most impressive part of the show, the huge double front flips and double backflips are mightily impressive, he's also been known to front flip over the trials rider when he's in action.

In an attempt to take all the glory the trials rider will also venture onto the trampoline, he's the only stunt cyclist in the world performing tricks on a trampoline and if he 'nails' his move he's sure to win the crowd over.

The equipment can be moved in and out of a main arena if necessary, if the equipment does have to be moved a maximum of 2 performances can be performed during the day.

If Pedal Power vs Parkour has its own arena then 4 performances can be provided throughout the day.

The show can go ahead whatever the weather.
